

**Superior Rivers Watershed Association
Water Chemistry Monitoring Data Sheet**

Location _____
Date _____
Samplers _____

Field Observations		Field Measurements	
SKY bright partly cloudy overcast raining snowing		Time	Total Miles Driven
RAIN EVENT past 24 hours? (circle one) YES NO			Total Volunteer Hours
RAIN INTENSITY (circle one) <u>Significant</u> (e.g. big thunderstorm, all day rain); <u>Moderate</u> (e.g. average rain event); <u>Light</u> (e.g. drizzle, short rain); <u>Not Applicable</u>			
WATER COLOR clear brown red white blue turbid		Temp. Air °C	Temp. H₂O °C
ALGAE none little some lots			
ALGAE COLOR green bright green brown on surface on rocks		pH	DO mg/L
AQUATIC VEG. none little some lots			
BOTTOM SUBSTRATE bedrock boulder cobble gravel clay sand silt		Chloride mg/L	Secchi tube depth (cm)
BANK CONDITIONS vegetated bare eroded			
PLANT/WILDLIFE OBSERVATIONS		Flow High Rising High Falling Average Low
